How to take fingerprints

Place the finger firmly on the fingerprinting stamp provided in the adventurers pack.

Press onto a clean white piece of paper.

Do not press too hard or the lines will smudge.

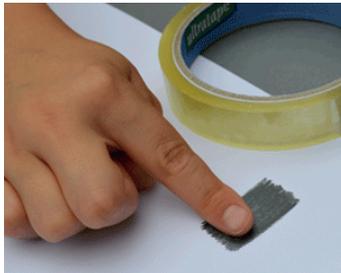

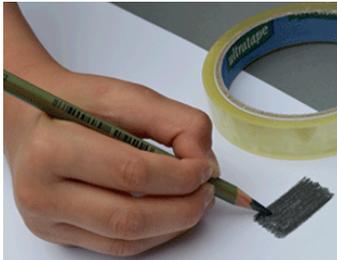

METHOD 2:

Take a soft pencil and colour in a block of grey on a clean piece of paper. Add multiple layers to get more graphite onto the paper.

Press your finger into the square.

Use a piece of clear sticky tape to remove the pencil transferred onto your finger tip.

Stick the tape to a clean white piece of paper.
